

Declaration of Estimated Tax for Corporations General Information

2006

Any corporation that can reasonably expect its income tax for the taxable year to be \$1,000 or more must make estimated tax payments.

The term "estimated tax" means the amount the taxpayer estimates to be the Louisiana income tax imposed for the current period, less the amount it estimates to be the sum of any credits allowable against the tax.

Estimated payments must be made, generally, on or before the fifteenth day of the fourth month, the sixth month, the ninth month, and the twelfth month of the taxable year. For taxable periods beginning this year, refer to the table below to determine the date the installment payments are due. The table below summarizes the due dates and amounts of installment payments where liability for declarations is caused by an event occurring within a taxable period.

Time and Amount of Installments

The due date and the amount of the installment payments shall be determined as follows:
